

ATHARVA VALIV

UI/UX DESIGNER & MCA GRADUATE

Phone: 9881133863 Email: atharvavaliv@gmail.com Location: Pune, Mumbai (Open to relocate)

PROFESSIONAL SUMMARY

Junior UI/UX Designer with a strong foundation in Computer Applications (BCA and MCA) and hands-on experience through internships at SrivisifAI Soft. Pvt. Ltd. and Linescripts Soft. Pvt. Ltd. Skilled in creating web and mobile interfaces, high-fidelity mockups and interactive prototypes using Figma and Webflow. Comfortable working end-to-end from basic user research and wireframes to developer handoff and documentation. Looking for a junior UI/UX or product design role in an IT company where I can contribute to real products and grow with the team.

SKILLS

Design and Tools

- Figma (wireframes, components, interactive prototypes)
- Webflow (basic website building and layout)
- UI/UX fundamentals: user flows, wireframes, mockups, prototypes
- Design principles: typography, colour theory, layout, spacing, grid systems
- Responsive web and mobile design

Technical / IT

- Basics of HTML, CSS and JavaScript for web interfaces
- Programming foundations (C, C++, Java / Python as per coursework)
- Database concepts and SQL fundamentals
- Basic understanding of software development lifecycle and teamwork with developers

Soft Skills

- Excellent communication and presentation skills
 - Critical thinking and problem solving
 - Strong interpersonal skills and teamwork
 - Proactive, self-motivated and organised work style
-

PROFESSIONAL EXPERIENCE

UI/UX Designer Intern, SrivisifAI Soft. Pvt. Ltd.

2023 (Internship)

- Designed high-fidelity UI screens for web / mobile modules using Figma, from concept to developer-ready prototypes.
- Created basic design system elements (buttons, forms, typography, colour styles) to ensure visual consistency.
- Collaborated with developers on handoff: shared design specs, assets and clarified interactions for implementation.
- Participated in discussions around product requirements, contributing UI ideas and improvements.

Visual Designer Intern, Linescripts Soft. Pvt. Ltd.

February – June 2024 (Internship)

- Designed marketing creatives, social media posts and stories aligned with brand identity.
- Used Figma and Webflow to support the design and basic implementation of landing pages and sections
- Documented work done and maintained a record of assets used to support smooth go-live of projects.
- Brainstormed ideas for company projects and helped convert them into working design concepts.

UI/UX Designer, XDE Studios Pvt. Ltd.

April 2025– December 2025

- Designed and revamped legacy UI screens to align with the company's updated design language, ensuring consistency and improved user experience.
- Created a VR-compatible locomotive pilot dashboard for the Pune Metro project, closely mirroring the older system to maintain familiarity while enabling clear readability of gauges and radar visuals in Unity.
- Collaborated with cross-functional teams to adapt complex technical requirements into clean, functional UI components across multiple platforms.
- Participated in organizing and supporting an internal hackathon event, contributing to smooth execution and team coordination.

PROJECTS

PortAmeegos, UI/UX Design and Prototyping

Client Project, Linescripts

- Designed a complete e-commerce app (PortAmeegos) in Figma, covering end-to-end UI/UX including wireframes, user flows, high-fidelity screens, and interactive prototypes.
- Created a clean and intuitive ordering experience that allows users to browse brochure-based items and track their orders seamlessly.
- Developed a custom brand identity by designing the logo from scratch, ensuring a cohesive visual language across the app.
- Executed the entire project as a solo designer, demonstrating strong expertise in Figma, visual design, prototyping, and product thinking.

Crikverse, Refined and Revamped UI Design

Client Project, XDE Studios

- Designed a cleaner, more intuitive UI for a complex dashboard application, simplifying cluttered layouts while maintaining alignment with the existing design system.
- Collaborated with the product and development teams to refine user flows and improve overall usability without disrupting established system patterns.
- Enhanced visual hierarchy and component organization in Figma, resulting in a smoother, more efficient application experience.

OffshoreBrucke, Web Development

Personal Project

- Designed and Developed a website
- Added subtle animations and made it look eye appealing to the user.
- Enhanced visual appearance using Framer, hosted it on their domain.
- Made the website responsive on desktop as well as mobile.
