Pune / Mumbai · Open to relocate

PROFILE

I design mobile apps, responsive websites and dashboards. I turn complex requirements into user flows, interactive prototypes and UI components that developers can build from.

EXPERIENCE

UI/UX Designer

XDE Studios Pvt. Ltd. Apr 2025 - Dec 2025

- Redesigned legacy interfaces around an updated design language to improve clarity across screens.
- Designed gauges and radar visuals for the Pune Metro pilot dashboard so they were readable in Unity VR.
- Worked with cross-functional teams to translate technical requirements into UI components.

Visual Designer Intern

Linescripts Soft. Pvt. Ltd. Feb 2024 - Jun 2024

- Designed on-brand digital creatives and responsive landing pages using Figma and Webflow.
- Organized design assets and documented implementation details for handoff.

UI/UX Designer Intern

SrivisifAI Soft. Pvt. Ltd. 2023 - 2024

- Created high-fidelity mobile and web interfaces, prototypes and reusable Figma components.
- Prepared interaction guidance, assets and specifications for developers.

SELECTED PROJECTS

PortAmeegos Client project · Solo designer

Designed the logo, wireframes and prototype for browsing a brochure, placing orders and tracking delivery.

CrikVerse Client project · XDE Studios

Reorganized a sports dashboard to clarify its visual hierarchy within the existing design system.

Gaddha Tracker Personal project · UI/UX

Designed accessible mobile flows for reporting potholes and tracking their repair status.

TriShield Website design · Framer

Designed a responsive website with clear content hierarchy and consistent layouts across screen sizes.

SKILLS

UX design

User flows, information architecture, wireframing

Interface design

UI design, prototyping, responsive design

Design systems

Auto Layout, components, developer handoff

TOOLS
